Message from the SCRS Board Chair

By Pam Garbin

Is it me or did October fly by faster than usual. Thank you to everyone who attended and or helped out at the Community Clean up this last month. It was a chilly one but the ditches got cleaned and the kids who attended WildPlay still managed to have a good time. Once again thank you to Melanie Reddy for organizing this event, it is always appreciated when the board gets an extra set of experienced hands to volunteer to run events such as this in our community.

Thank you to our community members that volunteered to overlook the BIG BIN so that we could have it out here this year. Thanks again Barb, Paulette, Paula, Dawn and Sarah!

The latest update I have received from the city in regards to the Sewer and Water upgrade is that the design for Sapræe Creek is 80% complete. About 40% response has been received on the questionnaires that were sent out to residents. If you have not responded PLEASE it is not too late, get your paperwork returned.

A few things happening in the Creek this month. Ladies we are hoping you can make it to our Fall Ladies Night and Home Business Open House, we have a wide range of table this year. It is cash and carry so why not start or continue your Christmas Shopping while supporting home based business right here in Sapræe Creek. We have Family Movie Night this month as well, please RSVP to this event by NOON on the day of the event so that I can ensure that there is enough food, when you do not respond I cannot guarantee this and we want it to be fair to those attendees that do respond. Thank you in advance for this.

If you haven't already, please check out the sign-up genius for BOTH the new session of yoga in the Creek and for our Family Christmas Party. We want to make sure that Santa has enough age appropriate gifts for his special stop in Sapræe Creek. Stop on in for photos with Santa and dinner with fellow community Families.

Have a great month everyone!

Councillor's Corner - November 2015 by Al Vinni

Off the top I want to invite everyone to our 7th Annual Guy Fawkes Bonfire and Fire works Night at our house at 6 Sapræe Creek. It will be held on Friday, November 6th, with the bonfire being lit at 6:00 pm, effigy of Guy Fawkes being burned at 7:00 pm and fireworks at 8:00 pm. Please bring your own chairs and food and beverages of choice (would prefer alcohol to be consumed after the fireworks as the children head home). We will have hot chocolate and some standard foods items, like marshmallows and hot dogs. Do not worry about the weather; the fire is always so large it makes its own weather. Any rain or snow evaporates before it gets near the ground. Yeah, it's a big fire, really big.

As you are reading this, I trust that our new Sapræe Creek Trail is finished. Driving home tonight (October 28th) I see they have paved from just past Prairie Creek to near the Rodeo grounds, so they just have a couple more short sections to put another layer of asphalt on, do some line painting, pack up their tarps, brush the road off and we'll be good to go. Took them the whole season for sure, but they are going to get it done.

Just for those of you that don't know, the entire project of doing the road from Highway 63 to the new airport entrance off of Saline Creek Parkway was started (what, five years ago?) by Alberta Transportation. It was their road then, and was up until they got the airport entrance section done. Then the road was handed over to the Regional Municipality and we tendered the contract that is being finished now. A very frustrating project; as I am sure you could see the joining of the recently completed road to the sections previously done by Alberta Transportation did not quite work as seamlessly as one might have hope. Pretty irritating to see road development only a few years old have to be ripped up so the alignments could match up to what they needed to be.

Also, the speed limit is going to be 70 km/hr. from Hwy 63 to the airport. I know a lot of you would prefer a higher speed limit, but most of Hwy 63 through town is 70 km/hr., and other arterials like Thickwood Blvd. and Confederation Drive are 60 km/hr. We will have to riot to get that limit raised; given that we can probably get away with driving 80 km/hr. not sure that's what we need to do. Modern engineering standards and traffic volumes dictate that the limit needs to be set at 70 km/hr. That's what I've been told as I was advocating for 80 km/hr. We'll see how it works.

Anyway, I am pleased to see the completion of our new Sapræe Creek Trail that is going to be much safer and enjoyable to drive with the four lane divided design and street lights to guide the way. Honk as you pass me, I'll be the guy in the right hand lane trying to keep it to 70.

We have budget deliberations coming up next week on the Council agenda. The Sapræe Creek Firehall expansion will be in the 2016 budget, and I will be trying to get the Community Hall projects in there as well. Kevin Grogan at Vista Ridge is having a lot of success with moving forward on the great little golf course that is budgeted and will be built over the next 2-3 years. This will be a course that beginners, novices, juniors and families will enjoy, it will be a great place to learn to play golf and have a fun family time without being out there all day. We're anticipating getting around the 12-hole layout will take less than 3 hours. Also, there will be an interesting driving range, where balls will be hit into the reservoir. Balls will be the kind that float, making collection at the end of the day pretty slick.

So, as that dreaded beast winter descends upon us once again, I look forward to all the improvements that will be made to our infrastructure in this Ward and with those improvements will come a safer commute to town and more activities for all to enjoy close to home. Tough times don't last, tough people do; and I look forward to decades of enjoyment living in the jewel of the Regional Municipality of Wood Buffalo. I hope you share my optimism about what the future can and will be for us.

Thx, Al Vinni Councillor Ward 3

The Saprae Youth Group thanks you for hosting us in your community so that we can invest in the children and families who live here. We would like to say 'Thank you' by inviting you to attend the upcoming [Celebration of Hope with Will Graham](#). It is a free event being held Saturday and Sunday night, November 14th and 15th in the Nexen Fieldhouse at Mac Island. The doors open at 6:15pm and the show starts at 7pm and goes until 9pm. There will be an illusionist, followed by performances by 3 different bands, and finally, a message of hope from Will Graham.

Some of us have been hit hard by this economic downturn, and some harder than others. But even if we've been fortunate not to be impacted, we all recognize that our security can never truly be placed in people, finances, places, or things... We need a true and real hope we can build our lives on that will stand the tests of time. And all of us need that hope.

STAY SAFE WHILE STAYING WARM!

Fort McMurray winters bring bitter cold temperatures. Stay safe while using portable heaters, furnaces and fireplaces by following safety precautions to ensure that your home is not heated because of a fire!

PORTABLE SPACE HEATERS

- When purchasing a portable heater ensure that it has been certified by a recognized regulatory body, such as the Canadian Standards Association (CSA).
- Space heaters should be placed on a level, hard and non-combustible surface (avoid carpets or rugs).
- Ensure the space heater is placed 1 metre from any combustible objects, such as curtains, bedding or blankets.
- Do not leave children or pets unattended around a space heater.
- Always turn off space heaters before leaving the room or going to bed.

Tips:

- Ensure your space heater is equipped with an automatic cut-off device. This will shut off the heater if tipped over.
- Fuel burning space heaters (kerosene or gas) should be inspected annually. Ensure you are using the proper grade of fuel source for your unit and that it is cleaned regularly.

FURNACES

- Furnaces should be inspected by a qualified and registered contractor at least once a year.
- Keep the area around your furnace clear.
- Each month, inspect your furnace for the following:
 - Filters—Change and/or clean according to manufacturer's instructions.
 - Vents—Look for any signs of rust, blockages or soot. If found, consult with a qualified technician.
 - The flame should be sharp and blue. If the flame is yellow, consult with a qualified technician.

FIREPLACES

- Inspect and clean your fireplaces, vents and chimneys regularly.
- Check for rust or creosote: a dark substance that forms in the flue. If a buildup of creosote is made, it can catch fire.
- Observe any excessive heat on the walls above your fireplace. This could be a sign of improper chimney installation, and a potential fire hazard.
- Keep combustible objects away from your wood stove or fireplace and always use a properly fitted screen to cover the fireplace opening. Floors and walls should be protected with noncombustible shields.
- Keep a heat-tempered glass or metal fireplace screen in place.
- Dispose of fireplace ashes in a closed metal can and store outside.
- Burn only dry, seasoned wood and never use combustible liquid to start the fire.
- Chimneys and vents need to be cleaned and inspected by a qualified professional at least once a year.
