Around the Creek

Message from the SCRS Board Chair

By Pam Garbin

It was two months ago when we knew that a forest fire was getting close to our hometown. Prairie Creek was evacuated and I kind of went into pre-evacuation mode and started packing some personal items, even drove to work with them for two days. After the scare last year, I had told myself I would be better prepared if it were to happen again. Ya, I do not think you can ever be fully prepared for the unknown. Fast forward to Tuesday May 3rd, it was a normal morning, blue skies and off to work I went. By 12:45 some fellow co-workers came in from lunch supervision at our school in Beacon Hill with photos of the cloud of smoke so close to our school and it all went downhill from there. As I calmly tried to match visibly scared parents with their children I went into robot mode. Stay calm for the kids I kept telling myself, I could tell when I went to sign my children and those of a good friend out of the school my hand visibly shaking as I wrote down their names that I was barely holding it together. Then I went out the front door and was confronted by the sounds of fire engines, smoke billowing and flames so close to the edge of the road, our only way out of Beacon Hill. As the one lane of traffic quickly turned to two lanes of outgoing traffic I continued to tell myself it was going to be OK, stay calm for the kids.

We hit the lights at the Shell station and I shook my head at the bravery of the men and women directly traffic at the lights and all I can remember is looking in my rearview mirror, seeing the big black clouds of smoke and the orange hue of the flames engulfing the beautiful area of Beacon Hill.

Fast forward two more hours, my brother and family came from Gregoire to Sapræ seeking safety. In short time we decided to hit the highway for Edmonton. As I made multiple circles of my beautiful new dream home I kept saying, its all good, it will never reach Sapræ Creek. We arrived in Edmonton early the next morning to wait for news. When I went on our Facebook Page and saw the photo shown on the front page of this issue, I still held out hope that we would be OK.

The next day I received the first photos of my property and my world shattered around me, how could it all be gone. In a blink of an eye all our hard work reduced to a pile of ashes. I have never seen my husband cry and it broke my heart to see him like that. There are days when I still wish it were all a horrible dream but alas, its not. This experience has taught me how strong we are as a family, how I am so blessed with

such a supportive family and wonderful friends. It has been so amazing to see how strong the people of Alberta are when one of their own is suffering. The support we received from strangers in Edmonton was truly heart filling, we were welcomed into a new town, my children were embraced by their new school and at every turn people were trying to find ways to help us, may it just be a BBQ, paying for my tea at Tim Hortons or supplies. It was the hardest thing in the world to let go of my pride and accept help, I cannot wait to pay it forward. Thank you to the brave souls that stayed behind and protected our community, I know if it wasn't for the ingenuity and bravery of many folks the outcome could have been a lot worse. My family and I cannot wait to rebuild in our fantastic community, Sapræ Creek and Fort McMurray are home to us. See you soon.....

REGIONAL MUNICIPALITY OF WOOD BUFFALO

I would like to extend a sincere thanks to all the Sapre Creek Volunteer Fire Department members for their tremendous efforts and continuous dedication to our community. In addition, thank you to all the local contractors and volunteers who were part of our team to protect our community from further loss. I would also like to acknowledge the support of 20+ fire departments across Alberta that assisted us, in our community, during this time.

On behalf of our Fire Department, our hearts go out to all those who have experienced damage to, or loss of, your home

Saprae Creek Strong

Darren Clarke, Fire Chief SCVFD

REGIONAL MUNICIPALITY
OF **WOOD BUFFALO**

Thanking my wonderful neighbour (who knew she has lost her home at the time) for the best Mother's Day gift ever. Which was this picture of our home, to let us know it was still standing after the beast came through our neighborhood. I am going to have it framed in my home.
Thank you so much Pam xoxo

Liz
Dempsey

REGIONAL MUNICIPALITY

On our re-entry date, June 4th, 2016. It was so nice to see some familiar faces and give hugs to fellow community members, as we returned home for the day.

Was so glad to see the Vista Ridge Lodge was spared and that Kevin is already on top of rebuild, ensuring completion for the winter season.

Pump House

Tube Hill

REGIONAL MUNICIPALITY OF WOOD BUFFALO

I would like to thank, along with ALL the first responders, (especially the Sapræ Creek Fire Dept) & their support workers of course, a few particular neighbours that went above & beyond for us.

Thank you Colum & Brennan Reddy. On evacuation day my husband Greg was incapacitated with a bad back & could hardly even walk. I ran around in a panic packing all my treasures to save in case the worst happened & we lost all. I had 3 large rubbermaid totes full of photo albums & photos as well as a tote of family heirlooms & some 1 of a kind hand carved Haida art. Colum & Brennan came over before we all evacuated & loaded all my HEAVY treasures into the truck for us as well as climbed on the roof to set up our sprinklers to try to save our house. I will NEVER be able to adequately thank these 2 young men who, if the worst would have happened & we lost our house, because of them we would have had a least those treasures that they took they time to help us load! We have been neighbours to the Reddy family for many years and we are so lucky because they are the best!

I would also like to extend a personal thanks to Shane Antle & Darcy Rustad who kept my fish in my pond alive while we were evacuated. Also thank you to Shane for checking on our house and delivering my vehicle to me in Athabasca. Thank you so much for going above and beyond!

Also thank you to Michael Morin for sharing information and all the wonderful neighbours in our community who helped each other out! What a great community Sapræ Creek is! We are so grateful & blessed that our house was saved, and so sad for our neighbours who lost theirs. I don't know who lives on the corner of Weiss & Spruce Valley Dr, but I know that I admired his old Firebird convertible so much I wanted to knock on his door & ask him if he would sell it to me and I cried when I saw it's burnt carcass. Such an irreplaceable loss, my heart goes out to all of you! If there is anything we can do to help our neighbours please let us know. We have room on our lot if anyone needs to park their camper or something.

Karen Brenneis

REGIONAL MUNICIPALITY OF WOOD BUFFALO

Photo Credits: Thank you to Jennifer Pike, Kevin Grogan, Michael Morin, Shawn Kennedy, Shane Antle, Gerry Poulin, Darren Clarke and anyone I might have missed.

In only two months it is hard to believe the changes in the scenery in and around Sapræe Creek. Some homes and streets look unchanged as there was no rhyme nor reason to the path that this fire took. To see houses that are burned to the ground, but garages still standing. To see a house gone but a plastic playset sitting in the front yard, not even touched. To see the scorch marks of the fire suddenly stop at the side of your house, at your garage door or even under your deck, extinguished before it did any damage.

All very unexplained things.

Yes Sapræe Creek has changed, it will never look the same but we will rebuild and it will look better than before and we will all be stronger at the end.

Sapræe Creek Strong

REGIONAL MUNICIPALITY OF WOOD BUFFALO

Looking at what is left of our "home" is something unfortunately many of us have had to face in our fine community. Even though some homes still stand, it is far from easy. All I know it still seems unreal that this even happened at all but I do know if it weren't for some fine folks in our community, the devastation would have been A LOT worse. No amount of words can thank you enough! All I know is that in time we will get through this together.....stronger than ever!

Since the news that our beloved home/dream was gone it's been a roller coaster ride. I honestly thought we'd return home and be able to help out others in Fort McMurray rather than to be some of those souls that needed help. We are a family used to giving rather than receiving. On behalf of my family we will never forget the kindness of our Saprae family and friends. I'm sure many of you can relate to our communities numerous and ongoing acts of kindness.

How many times have we gone back and said if we had done this or that or what if we taken that? Sound familiar? Yes, granted there may be those material things but what about those things that could never be replaced? Items of our loved ones that are no longer with us, pieces of those special moments in life, photos and videos....GONE.

Team Rubicon was an organization I had never honestly heard of until "The Beast" tore through Fort McMurray.....OUR SAPRAE CREEK. Finally our turn came for an appointment and we were being realistic about items that had the potential of survival. Watching this team lead by Wes and his team of 7 as they established their hot, cold and safe zones. Hot zone being the area inside the fence, basement and rubble. Cold we could look at the items but couldn't touch. A safe zone to hold them once they had been washed. Then we collectively drew a map of what was our home and area or items we were looking for within a 4 hour window.

First they went in with the shovel, then rake and sift each shovel full. With each shovel I'd say a prayer as my husband and I held our breath hanging onto the fence with hope. It quickly became too much for me as they kept referencing certain precious items locations that stood half a chance. Accepting the fact that my baby girl I only carried for 4 1/2 months and my beloved black lab Ozzy of 17 years momentous would never come, I held onto hope for something from my Dad.....it never came. No mug I had given to when I was a little girl or no little red Ford metal truck he played with as a boy himself.

The team was relentless but after making 3 passes in a realistic area it would have been had clearly perished along with my hopes of finding it. To say teams like ours do this multiple times a day for strangers, in all types of conditions is unbelievable. The devastation on their faces and the tears they cried over a little metal truck that meant so much to me and a man they didn't know speaks volumes of this fine organization and it's people. Thank you Team Rubicon for coming to Fort McMurray and giving each of us a chance for something that meant something for us and helping to provide closure.

We should also thank and recognize Samaritan's Purse as they have done the same or similar process for other people within our community.
